

Math 391

November 18, 2019

Assignment 1

- Assignment 1 marks will be uploaded to d2l soon. (Over the next week)
- The vast majority of assignments lost marks on multiple questions for the same mistake (labeling figures, etc).
 - For this assignment only, I want to not penalize you multiple times for the same mistake.
 - I have added 7 points to all the assignments. To offset how this was marked.
 - for the majority of assignments that should offset the double dipping on mistakes, and for the people who didn't, get an extra mark for having great figures.

Assignment 2

- Questions are due in tutorial today. (stack on my laptop)
- Code is due on d2l by end of Tomorrow November 19, 2019. The dropbox is now open for that.

Worksheet 8
